**CHAPTER-I**  
**EXECUTIVE SUMMARY**

**(a) About the Industry:**

ICT sector in Bangladesh is poised for continued expansion. According to the International Telecommunication Union (ITU), the number of internet users has nearly tripled from 6.5 percent of the population in 2013 to 18.2 percent in 2017 and continues to grow. While only 1.9 percent of the population has a fixed-broad band connection, 30 percent of the population has a mobile-broad band subscription. According to the Bangladesh Association of Software and Information Services (BASIS), around 1500+ software and IT-related companies have registered in Bangladesh. The size of the ICT market, excluding telecommunications, is estimated to be worth \$600 million and approximately 250,000 professionals are now employed in the sector. According to BASIS, over 400 IT companies currently export to over 60 countries, with North America being the main destination. The growth in the ICT sector is expected to create services, including training, and equipment export opportunities for U.S. businesses.<sup>[1]</sup> The country is successfully leveraging this rising penetration and has earned \$800 million in 2017 by exporting ICT products and services. On top of these, the total number of Internet Subscribers has reached 80.483 million at the end of December, 2017, can be seen as a consequential blessing of the recent progressive steps taken by the present government and the growing ICT sector. Major highlights of the IT Industry in the recent years can be seen as follows:

- Bangladesh is now considered to be among the next high prospect destinations in the segment, with accolades from AT Kearney, Gartner, Goldman Sachs and a host of others.
- In budget for FY 2015-16, the tax waiver on income from software and ITES has proposed to be extended to 2024 from June 30, 2019 now -- in line with the government's Digital Bangladesh vision.
- Total earnings of the industry in FY 2015-16 were USD 650 million, out of which exports amounted to USD 151.83 million (source: EPB).
- Export earnings from the ICT sector stood at about \$190.94 million in 2016-17 FY. (Source: EPB)
- Over 400 IT companies currently exports to over 60 countries, with North America being the main destination.
- The size of Bangladesh's e-commerce market is estimated to be \$110-115 million (around Tk 900 crore) this year, growing from \$65-70 million in 2016, said the report referring to RedSeer Consulting. And currently, the potential market for online shopping is about Taka 2,000 corers.
- The prospects of the sector have compelled the government of Bangladesh to set a target of USD 1 billion export earnings by 2018. With current trend of export, capacities and available resources, the target notches up USD \$5 billion by 2021.
- In 2016, world's leading management consultancy firm AT Kearney reported that, due to notable growth in IT outsourcing, business processing outsourcing (BPO) and software development, Bangladesh has secured 22nd place in Global Service Location Index (GSLI).
- In 2017, world's leading management consultancy firm AT Kearney reported that, due to notable growth in IT outsourcing, business processing outsourcing (BPO) and software development, Bangladesh has secured 21st place in Global Service Location Index (GSLI).
- Approximately, 3, 00,000 IT and ITES professionals with majority IT and other graduates are currently employed in the industry.
- Local industry's revenue generation of US\$ 0.9-1.1 billion in 2017 (Source: Everest Group, December 04, 2017). However, BASIS Research (Latifee & Hira, May 2017) shows that the local market size for ICT sector in 2017 was US\$ 1.18 billion.<sup>[2]</sup>

**PEST Analysis:****Political:**

The political condition is very stable in the country, which is very good for businesses to make higher profits.

**Economical:**

The economy is thriving in the recent years with annual GDP and Per capita income in raise. The result is need for more financial and technologically advanced services. The economy - generally the banking sector - is in a liquidity shortage, which in turn makes it hard for businesses to finance and manage their working capital.

**Societal:**

The education level has grown and the newer generation is more inclined to technological additions in work and lifestyle.

**Technological:**

In May 2006 Bangladesh inaugurated new submarine optic fiber connectivity as part of the 16 country consortium SEA-ME-WE 4 project. The landing station is in Cox's Bazar, the southern city near the Bay of Bengal. In 2014 the new SEA-ME-WE 5 cable is expected to provide an alternative operating at 100 Gbit/s, roughly 10 times faster than the current connection. The technological advances are more widespread and easy to get in the country.

**Industry Outlook****Growing Industry:**

The IT/ITES industry of Bangladesh is thriving now. The general industry outlook is as follows:

- Demand for software in the local market: US\$ 1.18 Billion
- No. of IT/ITES Professionals: 3,00,000 (appr.)
- Market value of IT/ITES: US \$400+ Million (Ministry of Finance)
- Professionals: 3,00,000 (appr.)
- Market value of IT/ITES: US \$400+ Million (Ministry of Finance)

The sector shows high potential for growth in coming future with advent of newer technologies.

The industry is very competitive with 400+ local software companies being member of BASIS. However, eGeneration being the only LSP of Microsoft and Premier partner of SAP (ERP Solutions Provider) gives our company a very high competitive advantage.

**Government Benefits:**

Here is a list of taxation policies that will give companies in IT sector a competitive edge in the overall market:

- Income tax exemption on Software & ITES till 2024
- VAT exemption rule & Submission procedure for Software/ITES Exporters
- VAT exemption on Software
- VAT Exemption for Software at Import and Production Level

**Available Human Resources:**

There is a future prospect of high skilled workers available to drive the IT/ITES industry forward:

- Leveraging ICT for Growth, Employment & Governance (LICT) Project Total 75,000+ Youth to be trained over next three years
  - 10,000 Top-up Training
  - 20,000 Foundation Skills Training Program
  - 20,000 Online Outsourcing Training
- Under the Skills for Employment Investment Program (SEIP), total 1.25 million Youth to be trained by 2021
- Under the Support to Development of Kaliakair Hitech Park project, 4,981 youths have received ICT training.
- To increase self-dependency, Learning and Earning project is working on creating 55,000 freelancers.
- Under the Bari Boshe Borolok (Getting Rich At Home) project, 14,750 youths have been trained as freelancers of whom 70 percent are women.
- Bangladesh Hi-Tech Park Authority (BHTPA) has imparted trainings to around 6,500 youths in different areas of Information and Communication Technology (ICT). Around 6,500 youths so far to enable them to get employment capitalizing on their skills in the field of ICT. Of them, around 4,700 trainees have already got jobs under Employment Incentive Program.

**Low cost of labor:**

Compared to other countries, which operate in IT related businesses; the country has low cost of labor. This gives the Bangladeshi IT/ITES industry an overall edge in the market.

**CHAPTER-VI**  
**DESCRIPTION OF THE ISSUER**

**(a) Summary:**

**(i) The summary of the industry and business environment of the issuer:**

ICT sector in Bangladesh is poised for continued expansion. According to the International Telecommunication Union (ITU), the number of internet users has nearly tripled from 6.5 percent of the population in 2013 to 18.2 percent in 2017 and continues to grow. While only 1.9 percent of the population has a fixed-broad band connection, 30 percent of the population has a mobile-broad band subscription. According to the Bangladesh Association of Software and Information Services (BASIS), around 1500+ software and IT-related companies have registered in Bangladesh. The size of the ICT market, excluding telecommunications, is estimated to be worth \$600 million and approximately 250,000 professionals are now employed in the sector. According to BASIS, over 400 IT companies currently export to over 60 countries, with North America being the main destination. The growth in the ICT sector is expected to create services, including training, and equipment export opportunities for U.S. businesses. <sup>[1]</sup> The country is successfully leveraging this rising penetration and has earned \$800 million in 2017 by exporting ICT products and services. On top of these, the total number of Internet Subscribers has reached 80.483 million at the end of December, 2017, can be seen as a consequential blessing of the recent progressive steps taken by the present government and the growing ICT sector. Major highlights of the IT Industry in the recent years can be seen as follows:

- Bangladesh is now considered to be among the next high prospect destinations in the segment, with accolades from AT Kearney, Gartner, Goldman Sachs and a host of others.
- In budget for FY 2015-16, the tax waiver on income from software and ITES has proposed to be extended to 2024 from June 30, 2019 now -- in line with the government's Digital Bangladesh vision.
- Total earnings of the industry in FY 2015-16 were USD 650 million, out of which exports amounted to USD 151.83 million (source: EPB).
- Export earnings from the ICT sector stood at about \$190.94 million in 2016-17 FY. (source: EPB)
- Over 400 IT companies currently exports to over 60 countries, with North America being the main destination.
- The size of Bangladesh's e-commerce market is estimated to be \$110-115 million (around Tk 900 crore) this year, growing from \$65-70 million in 2016, said the report referring to RedSeer Consulting. And currently, the potential market for online shopping is about Taka 2,000 corers.
- The prospects of the sector have compelled the government of Bangladesh to set a target of USD 1 billion export earnings by 2018. With current trend of export, capacities and available resources, the target notches up USD \$5 billion by 2021.
- In 2016, world's leading management consultancy firm AT Kearney reported that, due to notable growth in IT outsourcing, business processing outsourcing (BPO) and software development, Bangladesh has secured 22nd place in Global Service Location Index (GSLI).
- In 2017, world's leading management consultancy firm AT Kearney reported that, due to notable growth in IT outsourcing, business processing outsourcing (BPO) and software development, Bangladesh has secured 21nd place in Global Service Location Index (GSLI).
- Approximately, 3, 00,000 IT and ITES professionals with majority IT and other graduates are currently employed in the industry.
- Local industry's revenue generation of US\$ 0.9-1.1 billion in 2017 (Source: Everest Group, December 04, 2017). However, BASIS Research (Latifee & Hira, May 2017) shows that the local market size for ICT sector in 2017 was US\$ 1.18 billion. <sup>[2]</sup>

**PEST Analysis:**

**Political:**

The political condition is very stable in the country, which is very good for businesses to make higher profits.

**Economical:**

The economy is thriving in the recent years with annual GDP and Per capita income in raise. The result is need for financial and technologically advanced services. The economy - generally the banking sector - is in a liquidity shortage, which in turn makes it hard for businesses to finance and manage their working capital.

**Societal:**

The education level has grown and the newer generation is more inclined to technological additions in work and lifestyle.

**Technological:**

In May 2006, Bangladesh inaugurated new submarine optic fiber connectivity as part of the 16-country consortium SEA-ME-WE 4 project. The landing station is in Cox's Bazar, the southern city near the Bay of Bengal. In 2014 the new SEA-ME-WE 5 cable is expected to provide an alternative operating at 100 Gbit/s, roughly 10 times faster than the current connection. The technological advances are more widespread and easy to get in the country.

**Industry Outlook****Growing Industry:**

The IT/ITES industry of Bangladesh is thriving now. The general industry outlook is as follows:

- Demand for software in the local market: US\$ 1.18 Billion
- No. of IT/ITES Professionals: 3,00,000 (appr.)
- Market value of IT/ITES: US \$400+ Million (Ministry of Finance)
- Professionals: 3,00,000 (appr.)
- Market value of IT/ITES: US \$400+ Million (Ministry of Finance)

The sector shows high potential for growth in coming future with advent of newer technologies.

The industry is very competitive with 400+ local software companies being member of Basis. However, eGeneration being the only LSP of Microsoft and Premier partner of SAP (ERP Solutions Provider) gives our company a very high competitive advantage.

**Government Benefits:**

Here is a list of taxation policies that will give companies in IT sector a competitive edge in the overall market:

- Income tax exemption on Software & ITES till 2024
- VAT exemption rule & Submission procedure for Software/ITES Exporters
- VAT exemption on Software
- VAT Exemption for Software at Import and Production Level

**Available Human Resources:**

There is a future prospect of high skilled workers available to drive the IT/ITES industry forward:

- Leveraging ICT for Growth, Employment & Governance (LICT) Projecto Total 75,000+ Youth to be trained over next three years
  - 10,000 Top-up Training
  - 20,000 Foundation Skills Training Program
  - 20,000 Online Outsourcing Training
- Under the Skills for Employment Investment Program (SEIP), total 1.25 million Youth to be trained by 2021
- Under the Support to Development of Kaliakair Hitech Park project, 4,981 youths have received ICT training.
- To increase self-dependency, Learning and Earning project is working on creating 55,000 freelancers.
- Under the Bari Boshe Borolok (Getting Rich at Home) project, 14,750 youths have been trained as freelancers of whom 70 percent are women.
- Bangladesh Hi-Tech Park Authority (BHTPA) has imparted trainings to around 6,500 youths in different areas of Information and Communication Technology (ICT). Around 6,500 youths so far to enable them to get employment capitalizing on their skills in the field of ICT. Of them, around 4,700 trainees already have jobs under Employment Incentive Program.

**Low cost of labor:**

Compared to other countries, which operate in IT related businesses; the country has low cost of labor. This gives the Bangladeshi IT/ITES industry an overall edge in the market.

**CHAPTER-XX**

**RISK FACTORS AND MANAGEMENT'S  
PERCEPTIONS ABOUT THE RISKS**

## **RISK FACTORS AND MANAGEMENT'S PERCEPTIONS ABOUT THE RISKS**

The factors described below may conceivably materially affect investors' decisions as an investment in equity shares involves a high degree of risk. The company is operating in a globally competitive industry involving both external and internal factors having direct as well as indirect effects on the investments. Investors should carefully consider all of the information in this prospectus, including the risk factors, both external and internal, and management perceptions enumerated hereunder before making an investment decision. If any of the following risks actually occur, their business, results of operations and financial condition could suffer, the trading price of their equity share could decline, and investors may lose all or part of their investment.

### **I. INTERNAL RISK FACTORS:**

#### **a) Credit Risk:**

The risk of loss of principal or loss of a financial reward stemming from a borrower's failure to repay a loan or otherwise meet a contractual obligation. Credit risk arises whenever a borrower is expecting to use future cash flows to pay a current debt. This is the risk of default on a debt that may arise because of default by the borrower to pay the loan. In operating, any business there is always credit risk lies in the business.

##### **Management Perception:**

Credit Risk mainly lies with banks and Financial Institutions. eGeneration is enjoying credit facilities from different financial institutions amounting to taka 614 Lac (outstanding as on 30.06.19). A minimum Degree of credit risk as these obligations can be easily satisfied. A certain degree of credit risk lies because of this obligation but the management is well aware and efficiently manages through continuous supervision.

#### **b) Liquidity Risk:**

The risk of a company being unable to meet the short-term financial obligation. This usually occurs due to the inability to convert its current assets to cash without a loss of capital or income. Liquidity is a common phenomenon of the business.

##### **Management Perception:**

eGeneration is doing its level best to manage working capital management in an efficient way to maintain liquidity risk. Management is dealing with accounts payable and accounts receivable efficiently.

#### **c) Risk associated with the issuer's interest in subsidiaries, joint ventures and associates;**

Right now, eGeneration Limited has no subsidiaries, joint ventures and associates concern. It has only one related party named "Bagdoom". Detail is disclosed in Financial Statements.

##### **Management perception:**

The Company does not have any interest in subsidiaries, joint venture and associates companies. Therefore, there are no such possibilities of arisen risk in this respect.

#### **d) Significant revenue generated from a limited number of customers, losing any one or more of which would have a material adverse effect on the issuer;**

There is risk involved in having a limited number of customers and losing that particular customer has a negative impact on the company's sales and Cash flow as well as the IT sector.

##### **Management Perception:**

The Company is always keen to find out new buyers, which boost up the sales. We are not dependent on any particular or limited number of customers to operate our business.

- e) **Dependency on a single or few suppliers of raw materials, failure of which may affect production adversely;**

An interruption in raw material supply may impede the smooth production process.

**Management Perception:**

The Company is not dependent on a single or few suppliers of raw materials. eGeneration has a good number of vendors for each and every ingredient and service. eGeneration usually conducts vendor audit and its concerned professionals are very conscious regarding the vendor issue. Further, we assume that sourcing of raw material would be comparatively easier in times to come as due to globalization.

- f) **More than 20% revenue of the issuer comes from sister concern or associate or subsidiary;**

Having 20% revenue generation from sister concern or associated or subsidiary makes issuer dependent on other companies. Hence, there is a dependency risk. Revenue would be concentrated if it comes from sister concern or associate or subsidiary company. The company has a related party named Bagdoom. However, there are no material sales with the related party.

**Management Perception:**

As the Company has no associate or subsidiary and no sales with any other sister concern, there is no such risk.

- g) **Negative earnings, negative cash flows from operating activities, declining turnover or profitability, during the last five years, if any;**

The Company's financial strength may abrade due to negative earnings and cash flow consecutively for more than five years.

**Management Perception:**

The company does not have any negative earnings, negative cash flows from operating activities, declining profitability, over the last five years.

- h) **Loss-making associate or subsidiary or group companies of the issuer;**

The Company may expose to risk of contagion, which refers that the financial problem, especially insolvency, of one member of a group will bring about the deterioration in the condition of all members.

**Management perception:**

We do not have any investment in a subsidiary, associates or group companies.

- i) **Financial weakness and poor performance of the issuer or any of its subsidiary or associates;**

Financial performance has a material impact on the sustainability of the Company as going concern.

**Management perception:**

The Company's net profit after Tax and other business performance indicators show increasing trend due to the management dedication and suitable strategic action to face competition in the industry. Current and quick ratios are also in favor of the Company considering the industry. Issuance of fresh capital and repayment of the loans shall allow the company to enjoy a significant growth in net profit.

- j) **Decline in value of any investment;**

Investment value might rise or fall because of market conditions (market risk). The corporate decision, such as whether to expand into a new area of business or merge with another company, can affect the value of the investment.

**Management perception**

Management is well aware of the risk of its investments. There is no such indication that may affect the value of the investment.

- k) **The risk associated with the useful economic life of plant and machinery, if purchased in second hand or reconditioned;**

There is obsolesces risk relating to plant & Machinery. If the machinery is purchased from secondhand or reconditioned there is high risk relating to the profitability of the company.

**Management Perception:**

eGeneration uses authentic patented machinery for overall operation hence, moreover there all machineries are fully covered with service warranty and insurance. Expert technicians of the Company or manufacturer are solving any disruption with the machine.

- l) **Adverse effect on future cash flow if interest-free loan given to the related party or such loans taken from directors may recall;**

There is an interest burden on the company if the company gives Loan to the director or related party other excluding Interest if the money taken as loan. On the other hand, if such loan is taken from a related party or Director there will have a negative impact on the cash flows to pay off the loan.

**Management perception**

No unsettled receipt and payment in case of related party transaction. No director was given to or taken from a loan from the Company. So no risk shall arise or possibilities to arise in the future.

- m) **Potential conflict of interest, if the sponsors or directors of the issuer are involved with one or more ventures which are in the same line of activity or business as that of the issuer and if any supplier of raw materials or major customer is related to the same sponsors or directors.**

Conflict of interest between the issuer and its suppliers or major customer arise due to common management may create an impediment in the day-to-day business operational process.

**Management perception**

No sponsor or director hold any position or own any stake in the business of its supplier or customer. Therefore, no conflict would arise in this respect.

- n) **Related party transactions entered into by the company those may adversely affect competitive edge;**

In many cases related party transaction are undertaken in the course of the normal business of an entity, in view of the nature of related party relationships and transaction they may carry a higher risk about the ability of the Company to continue in business as a going concern- if the entity's interest is constantly subordinated to that of related party.

**Management perception**

The Company provides adequate disclosures in the audited financial statements, which are sufficient about its related party transaction. The above disclosure is presented in a true and fair view of the company's transaction with the related party. Therefore, there are no such possibilities to arising from the conflict in this respect.

- o) **Any restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement for debt or preference shares or any restrictive covenants of banks in respect of the loan/ credit limit and other banking facilities;**

The future business process or revenue may be hindered by any such restrictive covenants stipulated in the agreement with shareholders, with the sponsor or any loan agreement with the bank or financial institutes.

**Management perception**

eGeneration is always aware of terms and conditions including any type of restrictive covenants before entering in to and signing agreements. There are no restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement relating to debt or preference shares or any restrictive covenants of banks in respect of loan or credit limit and other banking facilities.

**Management Perception:**

The management of the Company always believes that employees are the main strength of a concern and if employees have job satisfaction then they will give their best effort to perform their respective duties. are a profitable entity and the management of the Company provides a competitive package to employees and offer them different benefits. However, employee unrest like strikes, work stoppages or increase in wage demands is part of the business and is always well aware of managing labor unrest efficiently. The Company has different incentive packages for employees so that they can be beneficial to such a package.

- q) **Seasonality of the business of the issuer;**

Revenue of the company would be affected if the business is seasonal or if the company is not doing business over the year.

**Management Perception:**

There are significant seasonal variations/aspect on the company's business. So, the management takes adequate measures as to cope with the seasonal variations.

- r) **Expiry of any revenue generating contract that may adversely affect the business;**

The revenue would be squeezed if any contract for which revenue generated had expired.

**Management Perception:**

The company did not enter into any contract with its customer and suppliers. Therefore, no such risk will arise.

- s) **Excessive dependence on debt financing which may adversely affect the cash flow:**

The company may expose to a high degree of risk and its future cash flow from operation shall be squeezed due to financial expenses.

**Management Perception:**

Though there are some advantages of debt financing, it causes increased financial expenses and creates excessive pressure on free cash flow. In the case of dependence on debt, financing is being reduced and the debt to equity ratio of the Company is declining. Presently, the Company has given more attention to equity financing and strives to go to the public.

- t) **Excessive dependence on any key management personnel absence of whom may have an adverse effect on the issuer's business performance;**

Key Management personnel has a key role in the organization for the smooth operation of the company. If key management personnel turnover is high, that has an adverse impact on organizational day-to-day activities.

**Management perception:**

Since the inception of the Company, the employee rotation rate is low. The organizational structure is well organized in such a way that any key management person if not in a job that's shall have no impact on Company's overall performance as other team members of his nearest position capable of taking the responsibility.

- u) **Enforcement of contingent liabilities, which may adversely affect financial condition;**

Contingent liabilities are likely to have a negative impact on a company's stock share price because they threaten to reduce the company's assets and net profitability. The extent of the impact on share price depends on the estimated probability of the contingent liabilities becoming actual liabilities

**Management Perception:**

The Company does not have any other contingent liabilities, which may adversely affect the financial condition except tax litigation.

**v) Insurance coverage does not adequately protect against certain risks of damages;**

The Company shall expose to significant loss if its assets are not properly covered by insurance.

**Management Perception:**

The company has different insurance coverage for all the relating issues that are risky to operating business. The Company diversifies the risk of damage to its assets by taking insurance policies. All fixed assets of the Company are under insurance coverage.

**w) The absence of assurance that directors will continue its engagement with Company after the expiry of lock-in the period;**

The company may expose to certain risk to operate its day-to-day business operations if the current director's engagement shall not continue after the expiry of the lock-in period

**Management perception:**

As the directors of the Company are, the owner so there is a reasonable guarantee that they will continue after the lock-in period.

**x) Ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditure:**

Any future dividend payment depends on the future revenue generation. Any negative earnings in the future shall be hindered the future financial stability of the company.

**Management Perception:**

eGeneration Limited is a profitable entity over a long period which is in an uptrend and it has sufficient profit in present capacity to pay a dividend. Besides, its cash flow is positive with good condition, EPS is in growth, has a working capital surplus and return on equity is in growth. After going to IPO, it will repay the debt of good amount, fulfill the requirement of capital expenditure requirement, and expand its business to meet the increased market demand of its product, which will decrease financial expenses and increase the profitability. As a result, extra cash will be generated to pay more dividends in the future.

**y) History of non-operation, if any and short operational history of the issuer and lack of adequate background and experience of the sponsors;**

History of non-operation indicates weak operational management of the Company. Non-operation leads to negative cash flow, incurring of losses and bankruptcy in the worst-case scenario.

**Management Perception:**

As a manufacturer, take their operation very seriously. They know, if the operation is stopped for one day that can hamper supply to their customers. In any situation, they do not compromise with their operation. The company started commercial operation in 2003 and they are proud to state that the company has never been non-operative to date. Considering the paper industry at world perspective, our sponsors have adequate background and experience. We have own power supply back up and other required support for the uninterrupted smooth operation.

**z) Risks related to engagement in a new type of business, if any;**

**Management Perception:**

The company has no plan to be engaged in the new type of business, as there is risk associated with starting it for different reasons. As such, there is no such type of risk.

**aa) Risk in investing the securities being offered with comparison to other available investment options;**

The Company would be exposed to potential financial distress if the return on investment is low compared to alternative investment options they have.

**Management perception:**

eGeneration is a growing and profitable Company in the IT sector of Bangladesh. The demand for IT-enabled services is increasing day by day at the local, regional and foreign market as well. The company is efficient with experienced management and well-trained work force with satisfactory skills and knowledge of their product and business. Therefore, it is not risky in investment securities in with comparison to other available investment options.

Any refusal of an application for public issue of any securities of the issuer may hinder the confidence of the Company or convey a negative impression about the financial status to the shareholders

**Management perception:**

The Company did not apply in past any such application to Bangladesh Securities and Exchange Commission. So no such refusal of public issue of securities through IPO was occurred in past in this respect.

**II. EXTERNAL RISK FACTORS:****a) Interest Rate Risks:**

Interest rate risk is the risk that the company faces due to unfavorable movement in the interest rates. Changes in the government's monetary policy, along with increased demand for loans/ investments tend to increase the interest rates. Such rises in interest rates mostly affect companies having floating rate loans or companies investing in debt securities.

**Management Perception:**

The Management of the Company is always aware of the interest rate. If the interest rate increases, the cost of the credit fund will increase. eGeneration has always been a cash-rich company and operates with low dependence on debt. As the company maintains the very low debt-equity ratio, the adverse impact of interest rate fluctuation is insignificant. Moreover, the company is confident of meeting its need for future expenses from its internal sources. In addition, the company emphasizes on equity-based financing to reduce the dependence on bank borrowings. Therefore, the management perceives that the fluctuation of interest rate would have little impact on the performance of the company.

**b) Exchange Rate Risks:**

Exchange rate risk occurs due to changes in exchange rates where a company is engaged in global trade as it receives as pays in foreign currency. Therefore, fluctuations in the related foreign currency rates may affect adversely to the Company's liquidity and profitability and expose a threat to the stability of the Company.

**Management Perception:**

The volatility of Taka against USD, GBP, and Euro and the recent trend of local currency devaluation may expose foreign currency risk. In such cases, the management of the company is confident to significantly cushion the foreign currency risk and price escalation risk through forwarding contracts if it is justifiable in terms of the cost-benefit analysis.

**c) Industry Risks:****Market Demand Risk:**

Market risk arises mainly due to a decrease in demand for the products, which would harm the performance of the company. eGeneration, like other companies, may face strong competition which might take place even after taking the best quality control measures.

**Management Perception:**

Globally the demand for IT products/solutions is increasing significantly and the trend is experiencing double-digit growth over the last decade. With businesses looking for IT solutions to increase efficiency and decrease operational expenditure, the industry is still at its nascent stage in meeting expectations and current demands. It is a similar case in Bangladesh, and learning from global best practices as well as avoiding industry mistakes made especially by our neighboring countries, the IT industry in Bangladesh is actually leapfrogging with meeting local demands and creating new opportunities for export of its services. Additionally, with Bangladesh becoming a middle-income nation, it is expected that more global brands and multinational companies will soon start their operations in Bangladesh thus increasing the demand and customer portfolio for eGeneration.

**d) Economic and political risks:****Economic Risks:**

The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, commodity and energy prices and various other factors. Any significant changes may adversely affect our business and financials.

**Management Perception:**

Bangladesh economy is booming for the last few years. Consistent industrial growth along with increased production has made the Per Capita Income higher than that of recent years. In addition, favorable government policies and industry-friendly policies by other regulatory bodies have proved to be very favorable for the instrument.

**Political Risks:**

The performance of the company may be affected by the political and economic instability both in Bangladesh and worldwide. Any instance of political turmoil and disturbance in the country may adversely affect the economy in general.

**Management Perception:**

The company can prosper in a situation of political stability and a congenial business environment. Political turmoil and disturbance are bad for the economy and so for this sector. This is why the management of the company is always concerned about the prevailing and upcoming further changes in the global or national policy and shall respond appropriately and timely to safeguard its interest.

**e) Market and Technology-Related Risks:**

Technology always plays a vital role in the existence of any industrial concern. The innovation of new and cost-effective technology may obsolete existing technology, which may cause a negative impact.

**Management perception:**

Management of eGeneration is aware of recent technological developments in the IT sector and keeps their employees up to date by providing necessary training. Furthermore, eGeneration is marketing the latest technological equipment and well equipped with the latest technology.

**f) Potential or existing government regulations;**

The Company operates under Companies Act, 1994, Income Tax Ordinance, 1984, Income Tax Rules, 1984, Value Added Tax (VAT) Act, 1991, Value Added Tax (VAT) Rules, 1991, Customs Act, 1969 and other related regulations. Any abrupt changes in the policies made by the regulatory authorities may unfavorably affect the business of the Company.

**Management perception:**

Unless any policy change that may negatively and materially affect the industry as a whole, the business of the Company is expected not to be affected significantly. The Software industry in Bangladesh is a sector with considerable local and International demand. Therefore, it is highly unlikely that the Government will initiate any fiscal measure having an adverse effect on the growth of the industry.

**g) Potential or existing changes in global or national policies;**

The Company is dependent on imported raw materials. Any scarcity due to changes in policy in the international market might dent the production level and profitability. The performance of the company may be affected due to unavoidable circumstances both in Bangladesh and worldwide, as such political turmoil and disturbance in the country may adversely affect the economy in general.

**Management perception:**

The management of is always concerned about the prevailing and unforeseen future changes in the global or national policy and equipped them to respond appropriately and timely to safeguard its interest. Due to the strong equity of the company in the local market and with long and profound track experience, the Company will always endeavor to withstand the unexpected changes or any such potential threats. Nevertheless, political stability and a congenial business environment is definitely the best situation in which "eGeneration" is destined to achieve its maximum potential.

**h) Statutory clearances and approvals those are yet to be received by the issuer;**

To smooth running of the business operation, statutory clearance is required.

**Management Perception:**

The company has collected all the statutory clearance and approval to operate the business. The necessary update and renewal is a continuous process. Hence, there is a limited degree of such risk associated with the company.

**i) The competitive condition of the business;**

eGeneration Limited is operating in a free market economy regime. The company might have to face stiff competition from its competitors. Easily availability of global products in the local markets adds to the competition, challenging the profitability of the business.

**Management Perception:**

Bangladesh is the key source of economic labor in the world, gaining proportional advantages for its industries over their global competitors. Other overhead costs are also low in Bangladesh. As a result, the company has been able to maintain its cost of products most competitive. Moreover, over the last few years the company has built a trustworthy relationship with its customers, which helps the company avoid competition with others.

**j) Complementary and supplementary products or services, which may have an impact on the business of the issuer.**

Complementary and supplementary product may have an impact on the sale of the existing product of the Company.

**Management Perception:**

The company has not faced any challenges relating to supplementary and complementary products and management are concerned with the issue. In the future, if necessary, management may diversify the product to be competitive over the competitors.

**Other Risk Factors: -****a) Risk related to not having any immovable property: -**

Risk of sudden losing of income generating capacity of the company without having a scrap value of the immovable property. It also creates problem in creating fixed and floating charges against immovable property of the company.

**Management perception: -**

Nature of the IT business is such that it requires less immovable property. Management knows the pros and cons of not having any immovable property and establishing enough income generating resources to address the risks.

**b) Risk related to dependency on intangible assets: -**

Intangible assets may be obsolete due to changes in technology, market demands which will result in impairment of assets and in less income generation from these intangible assets that will affect the overall profitability of the business of the company.

**Management perception: -**

Management is well aware to adjust the strategic plan in accordance with the changes in the technologies and market demand and investing in new assets to compete in the market. Management also has recovery plan for these intangible assets.

**c) Risk related to probable obsolescence of equipments and software since 46% of equipments and software were expired their economic life: -**

**Management perception: -**

Obsolete equipments and softwares are not currently used in the operation of the company. Management has invested in new assets and softwares that will generate income to cover up the obsolescence of the existing assets and softwares.

**d) Risk related to high capital based but low earning based company: -**

Investors may not get a good return on their investment. Besides payback period of the related investments may be high because of low earning.

**Management perception: -**

Management has long-term strategic plan to address the risk related to the high capital base and to increase the earning base of the company.

**e) Risk related to data center**

Data center is a new line of business for eGeneration Limited. If the company fails to acquire adequate number of clients after data center establishment then the company will face major business threat in terms of revenue generation.

**Management perception: -**

Next IT business will be data center based. Data center has a huge opportunity in our country to be developed in a profitable manner. Management has related experience in the business. Management also has strategic plan to alternative use of data center that will minimize the risk of loss in the data center business.

**f) Risk related to income generation**

Income may be affected by rapid changing in technologies, market demand and market saturation and competition from local and foreign companies

**Management perception: -**

Risk in income generation also shows/creates opportunities for new market expansion and high return. Management is well aware of the consequences of risks of IT business and has strategic plan to maintain smooth income growth despite of the risks described above.

**g) Risk related to use of IPO Proceeds**

IPO proceeds may not be utilized in effective and timely manner and return in investments may be lower than the expectation.

**Management perception: -**

Management has well aware of the Risk related to use of IPO Proceeds and confident about the compliance of the related commitments to ensure the effective utilization of the IPO proceeds.

## 3 Digital Healthcare Platform Development

Healthcare sector of a nation is instrumental to the quality of life there. Healthcare in Bangladesh is a sector that has always been riddled with infrastructural difficulties, given the nation's robust population. The industry has always struggled to provide quality service, often being too understaffed (with meagre, and insufficiently skilled workforce), under-funded and poorly equipped to handle rising demands of a rapidly growing population. For a long time now, the healthcare sector has been in dire need of reforms in terms of structure and process of service delivery. Old models became obsolete and desperate for digital transformation to foster efficiency, and consistent quality. According to Lightcastle Partners Bangladesh Business Confidence Index, Healthcare is touted as one of the most promising sectors as the nation moves towards Digital Bangladesh 2020. Proliferation of Information Technology has enabled players within the industry, empowering healthcare professionals and recipients of the services across all walks of the community. Over the last decade, a number of projects have been undertaken in both public and private sectors to help close the gap and help healthcare service providers overcome their inadequacies with technology. These projects are going to help address major issues that created a quality discrepancy. Furthermore, in April 2011, the Planning Wing of the Ministry of Health and Family Welfare of the GoB issued the Strategic Plan for Health, Population, and Nutrition Sector Development Program 2011-2016 (see: GoB, MoHFW, 2011b), of which Section 5.5 describes Bangladesh's eHealth strategy in the context of strengthening health systems and governance overall. Priorities include improving collection of information on core health indicators, strengthening existing departmental health information systems. The government has more than BDT 800 crore worth of healthcare transformation projects in the next couple of years. Using ICT is a unique concept to provide better health service. The use of ICTs in health is not merely about technology but a means to reach a series of desired outcomes. ICT helps to provide:

- a) Better treatment decisions,
- b) Higher quality and safer care,
- c) Information about alternative choices,
- d) Better responses to health needs,
- e) Support to effective, efficient, and equitable health system, and
- f) Increased awareness of health risks.

ICT also helps to strengthen the ability to monitor health service in the remote area, improve the efficiency of health service, support more effective health research, facilitate collaboration and cooperation, enable remote consultation and improve the dissemination of health services. eGeneration has been conducting R&D in health technologies for the past two years. The Industry 4.0 capabilities acquired from those work is enabling eGeneration to develop an AI-based chatbot, an X-ray image analysis tool based on machine learning, ICU over the Cloud, telemedicine and teleradiology solutions, which are specifically geared towards improving and accelerating the detection and treatment of various infections and diseases. Recently, eGeneration helped automate five hospitals of Border Guard Bangladesh with 500 beds through its self-developed Hospital Management Information System (HMIS). eGeneration is planning to invest BDT 18,389,000 in developing IT infrastructure for digital healthcare platform development. This will increase the revenue from health technology solutions and enhance eGeneration's capability to serve the current and potential customers in healthcare sector better with emerging technologies such as artificial intelligence, machine learning, big data analytics, blockchain and virtualization. It will also ensure the

saving of cloud subscription fee of Azure and Amazon Web Services, as well as third-party data center costs. The details of the hardware requirement are given below:

#### 6 Digital Healthcare Platform Development

Healthcare sector of a nation is instrumental to the quality of life there. Healthcare in Bangladesh is a sector that has always been riddled with infrastructural difficulties, given the nation's robust population. The industry has always struggled to provide quality service, often being too understaffed (with meagre, and insufficiently skilled workforce), under-funded and poorly equipped to handle rising demands of a rapidly growing population. For a long time now, the healthcare sector has been in dire need of reforms

in terms of structure and process of service delivery. Old models became obsolete and desperate for digital transformation to foster efficiency, and consistent quality. According to Lightcastle Partners Bangladesh Business Confidence Index, Healthcare is touted as one of the most promising sectors as the nation moves towards Digital Bangladesh 2020. Proliferation of Information Technology has enabled players within the industry, empowering healthcare professionals and recipients of the services across all walks of the community. Over the last decade, a number of projects have been undertaken in both public and private sectors to help close the gap and help healthcare service providers overcome their inadequacies with technology. These projects are going to help address major issues that created a quality discrepancy. Furthermore, in April 2011, the Planning Wing of the Ministry of Health and Family Welfare of the GoB issued the Strategic Plan for Health, Population, and Nutrition Sector Development Program 2011-2016 (see: GoB, MoHFW, 2011b), of which Section 5.5 describes Bangladesh's eHealth strategy in the context of strengthening health systems and governance overall. Priorities include improving collection of information on core health indicators, strengthening existing departmental health information systems. The government has more than BDT 800 crore worth of healthcare transformation projects in the next couple of years. Using ICT is a unique concept to provide better health service. The use of ICTs in health is not merely about technology but a means to reach a series of desired outcomes. ICT helps to provide:

- g) Better treatment decisions,
- h) Higher quality and safer care,
- i) Information about alternative choices,
- j) Better responses to health needs,
- k) Support to effective, efficient, and equitable health system, and
- l) Increased awareness of health risks.

ICT also helps to strengthen the ability to monitor health service in the remote area, improve the efficiency of health service, support more effective health research, facilitate collaboration and cooperation, enable remote consultation and improve the dissemination of health services. eGeneration has been conducting R&D in health technologies for the past two years. The Industry 4.0 capabilities acquired from those work is enabling eGeneration to develop an AI-based chatbot, an X-ray image analysis tool based on machine learning, ICU over the Cloud, telemedicine and teleradiology solutions which are specifically geared towards improving and accelerating the detection and treatment of various infections and diseases. Recently, eGeneration helped automate five hospitals of Border Guard Bangladesh with 500 beds through its self-developed Hospital Management Information System (HMIS). eGeneration is planning to invest BDT 18,389,000 in developing IT infrastructure for digital healthcare platform development. This will increase the revenue from health technology solutions and enhance eGeneration's capability to serve the current and potential customers in healthcare sector better with emerging technologies such as artificial intelligence, machine learning, big data analytics, blockchain and virtualization. It will also ensure the saving of cloud subscription fee of Azure and Amazon Web Services, as well as third-party data center costs.

**FUTURE PROSPECTS:**

eGeneration Ltd is now competing against global brands in the international market. It has been exporting software and other IT service in the recent year. eGeneration is working on IOT in Japan, block-chain and cloud-based applications in the Middle East, artificial intelligence, and data science by which a positive image of the country is being created. At the current pace, the income from software export will reach one-lac dollars by the end of this year. By 2021, it will go up to \$50 lac. Currently, Bangladesh earns about \$800 million from this sector. The potential markets for eGeneration Ltd. are India, Nepal, Bhutan, Malaysia, Japan, UK, US and various African and European countries. The government had announced tax holiday for the software sector until 2024. Recently, the government has also announced a 10% cash incentive in software and service goods export. eGeneration Ltd has a plan for opening offices in India, Nepal, Bhutan, Malaysia, Japan, UK, US and various African countries. The Government of Bangladesh has taken some important initiatives to develop our IT sector. Still, we are waiting to see a fruitful change in our Information Technology. However, some remarkable steps of government are highlighted for information.

- IT has been declared as a thrust sector.
- Quick implementation of the recommendations of JRC report (a high powered committee for software export).
- Waiving all taxes and duties from import/export of computer hardware and software.
- Hundred percent remittances of profit and capital gains for foreign investors without any approval.
- BTTB's implementation of DDN service.
- The decision to link Bangladesh to the global highway through submarine cable link by next two years.

**Some other Key drivers for growth in the IT sector are-**

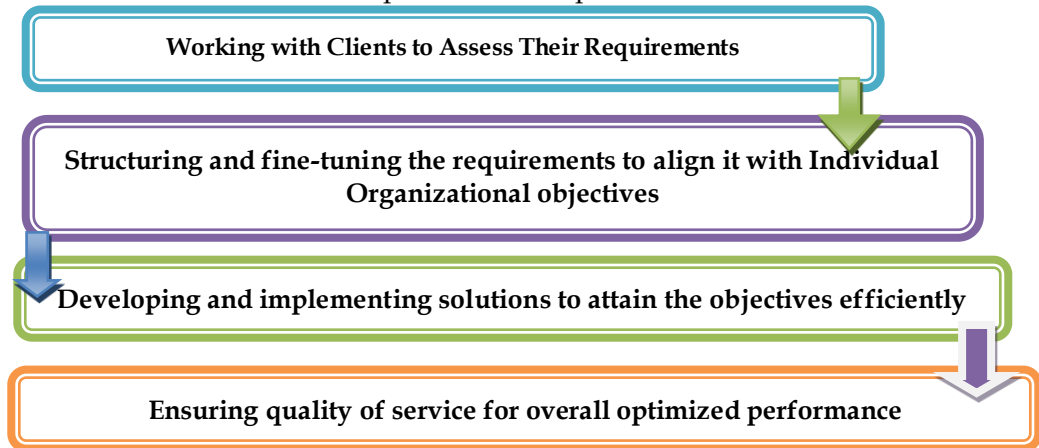

- Low operation cost and tax advantages
- Supportive policies from the government
- Availability of technically skilled manpower
- Rapid introduction of IT technologies in major sectors such as telecom, BFSI.
- Potential growth in export demand
- New technology usage like Cloud Computing
- The government established Special Economic Zones (SEZ) s
- Government’s e-GP (e-Government Procurements)

• **UPCOMING PRODUCTS:**

Name of Product	Feature of Product
<p align="center"><b>Approval Management System</b></p>	<p>Approval Management System replaces paper and email-based approvals with fully automated approval workflows that allow more efficient management of the business processes. Approval requests are submitted through a self-service portal and routed to different approvers based on specific business rules. With role-based access (regular user, manager, admin), user can control who has access to which data. It offers customizable approval form fields, both general-purpose and financial approvals, role-based access control, multi-level approval workflow, conditional approvals, tracking object changes and automatic email notifications among other features.</p>
<p align="center"><b>Enhanced Data Center</b></p>	<p>Data centers are centralized locations where computing and networking equipment is concentrated for the purpose of collecting, storing, processing, distributing, or allowing access to large amounts of data. An enhanced data center ensures bigger capacity and added security to data, more processing power through GPU-enabled servers for conducting rigorous data analysis, total control over data, and significant cost savings in the long run. It can also enable capabilities in emerging technologies such as artificial intelligence, machine learning, big data analytics, blockchain and virtualization.</p>
<p align="center"><b>Healthcare Technology</b></p>	<p>eGeneration’s Healthcare Technology will provide a complete healthcare management system that has remote care facilities and integrates database based predictive engine. This solution is unique and complete with 23 software modules which include Telemedicine and Disease Management, Enterprise Drug and Supplies Procurement and Inventory Management System, Hospital Inventory Management System, Electronic Medical Record System, Diagnostic Management System, Medical device Integration, Registration and Appointment Management System, Medication Information Management System, Pharmacy Management System, Automated Billing System, Local Purchase System, Population Health Research and Management System etc. eGeneration health-tech software has Remote and Real-time Capabilities. Through this Technology, patients can consult digitally with doctors. This solution also has real-time delivery of digital reports, prescriptions, and billing invoicing capabilities. Real-time dissipation of data and reports can save thousands of lives. There is an inbuilt Predictive Engine in this solution package. eGeneration has a vast database of medicine and drugs with related data. This database improves prescribing through the use of the predictive engine by eliminating errors. Error-free prescribing drastically improves the effectiveness of cure and medications. By using the gathered data, a data analytics system of this health-tech solution will bring more efficiency and effectiveness in service delivery of the healthcare industry.</p>

**METHODOLOGY:**

We have considered the historical data of our last couple of year's revenue and expenses. We have also talked to our staffs. The interviews provided us with relevant information concerning all aspects of sales and expenses. The responses to these open-ended questions have allowed us to have a greater depth of knowledge into their opinions and so we were able to address them to the best of our ability. A lot of time was spent working on the interviews; also that each had a different idea that is important to the effects of the implementation of sales growth, and enough background information was included. Once we have compiled and analyzed all our data and research we as a group, look at all the different options of implementing the living wall and then decide on the best option for the sales, current and future market and our saleable capacity in near future.

#### MEANS OF FINANCE:

The previously mentioned project will be established by using IPO Proceeds.

Issue Size (Number of Shares to be issued)	Issue Price	Amount in Taka
15,000,000 Shares	10	150,000,000
Less: IPO Expenses		(17,611,000)
<b>Net IPO Proceeds</b>		<b>132,389,000</b>

#### WEAKNESS:

- The dearth of specialized technical resources in the industry.
- Stringent policies applicable to IT imports

#### THREAT:

- Competition from foreign firms
- Comparative high pricing induces companies to opt for in-house local solutions

#### Payback period

Average payback period of the above projects are 4 years after implementation of the project. In case of commercial space, it is 10 years considering only the office rent savings of the company. Operating profit from using the space is not considered which might have produced a lower payback period.

#### Net present value (NPV)

For Commercial Space, NPV is positive and more than Taka 8,00,00,000/- depending on the value increase of the flat and area office rent. For Loan repayment monthly interest saving is Taka 931,713 per month. Digital Healthcare Platform Development gives a positive NPV of 3,708,347 considering the project period of four years.

#### Internal Rate of Return

These Project promises a minimum return of 26% if completed on schedule.

#### Sensitivity Analysis

Sensitivity tests have done and projects withstands those tests.

#### CONCLUSION:

The feasibility of the project has been conducted and analyzed from the viewpoint of marketing, financial, management & economic aspects and found to be worthwhile. The projected financial results and the profitability estimated based on historical data show that the project is viable and lucrative. This projection will help the interested parties to have an idea of the eGeneration Limited.

**FINANCIAL STATEMENTS**

---

- a) **The latest financial statements prepared and audited by the Commission’s panel auditors in adherence to the provisions of the Securities and Exchange Rules, 1987, the Companies Act, 1994, International Financial Reporting and Auditing Standards as adopted in Bangladesh from time to time and Financial Reporting Act;**

**Independent Auditor’s Report  
To the Shareholders of eGeneration Limited**

**Report on the Audit of the Financial Statements**

**Opinion**

We have audited the Financial Statements of **eGeneration Limited** (the “Company”), which comprise the Statement of Financial Position as at 30<sup>th</sup> June, 2019, and Statement of Statement of Profit or Loss & Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying Financial Statements give true and fair view, in all material respects, of the Financial Position of the Company as at 30<sup>th</sup> June, 2019, and of its Financial Performance and its Cash Flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs)

**Basis for Opinion**

We conducted our audit in accordance with International Standard on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are the Company in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context to four audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<b>Risk</b>	<b>Our response to the risk</b>
<p><b>Revenue Recognition</b></p> <p>Revenue recognition was determined to be a key audit matter and a significant risk of material misstatement because of the risk related to the timing and accuracy of the recognized amounts of revenue. The total revenue generated for the year ended was of amount Tk. 363,945,996. Recognition of the revenue is complex due to several types of customer contracts utilised, including sale of software and service sales. We focused on this area as recognition of revenue involves significant judgment and estimates made by Management including, whether contracts contain multiple performance obligations that should be accounted for separately and the most appropriate method for recognition of revenue for identified performance obligations. This comprises allocation of consideration to the individual performance obligations of multi-element contracts as noted above, assessing whether performance obligations under supply-and-installation contracts are satisfied at a point in time or over time. Further, it comprises the point in time when transfer of control has occurred regarding sale of software and assessing the degree of completion of project</p>	<p>Our audit procedures comprised the testing of internal controls in connection with the revenue recognition including the application controls in the most important IT applications affecting the financial reporting. We performed analytical procedures, which focused on analyzing the development of turnover. In addition, we performed audit procedures such as compared revenue transactions near year-end to the supporting documentation, analyzed general ledger journal entries in order to identify abnormal entries as well as compared trade receivables to the payments received. We tested the relevant internal controls used to ensure the completeness, accuracy and timing of revenue recognised, including controls over the degree of completion of developing the software and service contracts at year-end. We read a sample of both project and service contracts to assess whether the method for recognition of revenue was relevant and consistent with IFRS 15, and had been applied consistently. We focused on contract classification, allocation of income and cost to the individual performance obligations and timing of transfer of control. Where a contract contained multiple elements, we considered Management's judgments</p>

and service contracts, which are accounted for over time.	as to whether they comprised performance obligations that should be accounted for separately, and, in such cases, challenged the judgements made in the allocation of the consideration to each performance obligation. We evaluated and challenged the significant judgements and estimates made by Management in applying the company's accounting policy to a sample of specific contracts and separable performance obligations of contracts, and we obtained evidence to support them, including details of contractual agreements, delivery records, receipts and project plans. For the contracts selected, we inspected original signed contracts and reconciled the revenue recognised to the underlying accounting records. We obtained a sample of Management's calculations of the degree of completion of service contracts at year-end. We matched a sample of source data used in Management's calculation to supporting evidence, and evaluated the judgments applied.
See note no. 22.00 to the statement of profit or loss & other comprehensive income.	
<b>Valuation of Property, Plant and Equipment</b>	
<p>The carrying value of the PPE amounted to Tk. 306,994,490 as at 30 June, 2019. The valuation of PPE was identified as a key audit matter due to the significance of this balance to the financial statements.</p> <p>Expenditures are capitalized if they create new or enhance the existing assets, and expensed if they relate to repair or maintenance of the assets. Classification of the expenditures involves judgment as there are assets that are specialized in nature and assessing the physical existence required proper knowledge. The useful lives of PPE items are based on management's estimates regarding the period during which the asset or its significant components will be used. The estimates are based on historical experience and market practice and take into consideration the physical condition of the assets.</p>	<p>Our audit included the following procedures:</p> <p>We assessed whether the accounting policies in relation to the capitalisation of expenditures are in compliance with IFRS and found them to be consistent.</p> <p>The physical existence of the assets was verified as there were specialized for the sector.</p> <p>We obtained a listing of capital expenditures incurred during the year and, on a sample basis, checked whether the items were procured based on internal purchase order that had been properly approved by the responsible individuals.</p> <p>We inspected a sample of invoices and other source documents to determine whether the classification between capital and operating expenditure was appropriate.</p> <p>We evaluated whether the useful lives determined and applied by the management were in line with historical experience and the market practice.</p> <p>We checked whether the depreciation of PPE items was commenced timely, by comparing the date of the reclassification from capital in progress to ready for use, with the date of the act of completion of the work.</p>
See note no. 4.00 to the financial statements	
<b>Evaluation of Intangible assets</b>	
<p>The intangible assets reported in the financial statements of amount Tk. 243,083,277 was identified as a key audit matter due to the significance of this balance to the financial statements along with its nature.</p> <p>The intangible assets include the purchased software license, implementation, and integration</p>	<p>We assessed the processes and controls put in place by the company over their view of intangible assets and its impairment analysis. We obtained an understanding, evaluated the design and tested the operating effectiveness of the key controls over the recognition of intangible assets, impairment testing, including controls over market data inputs into valuation models, model governance and valuation</p>

and system development costs related to the software. Periodic impairment testing of these intangibles requires determination of recoverable amounts and value in use. Both these values involve significant management's estimate and judgments that can give rise to material misstatements or management bias.	adjustments. We evaluated the appropriateness of future cash flows that is to be generated from the use of the intangible assets. Overall, we consider the measurement inputs and assumptions used by management to be in line with our expectations and to lie also within a range that we consider reasonable. Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.
See note no.5.00 to the financial statements	
<b>Valuation of investment</b>	
The investment made was of Tk. 244,655,325 as at 30 June, 2019 on development of several upcoming technologies. Future economic benefits are to come to the company in future. To determine the benefits that are to flow to the company from these investments require significant management's estimate and judgments that can give rise to material misstatements. The valuation of the investment portfolio involves judgement and continues to be an area of inherent risk. The risk is not uniform for all investment types and is greatest for this type of industry, where the investments are hard to value because uncertainties are involved in relation to the future economic benefits to be received.	We assessed the processes and controls put in place by the company over the investment made and whether economic benefits is to flow to the company. We obtained an understanding, evaluated the design and tested the operating effectiveness of the key controls over the recognition of these investments. We evaluated the appropriateness of future cash flows that is to be generated from the investment made. Overall, we consider the measurement inputs and assumptions used by management to be in with our expectations and to lie also within a range that we consider reasonable. Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.
See note no. 6.00 to the financial statements	
<b>Valuation of Work-In-Progress</b>	
The work-in-progress as at 30 June, 2019 was of Tk. 250,168,512 that is considered to be significant to the financial statements due to its nature. Our audit procedures were designed to focus on the development stages of the software that involves significant judgment and estimates made by Management including, whether contracts contain multiple performance obligations and these are transferred to assets based on those obligations and contracts. It comprises the point in time when transfer of control due to its usable condition has occurred regarding the software and assessing the degree of completion of project and service contracts, which are accounted for over time.	We tested the design and operating effectiveness of the company's controls over the recognition of the work in progress to relevant category of assets that are critical to financial reporting. We assessed the processes and controls put in place by the company over the work in progress to be transferred as assets and whether economic benefits is to flow to the company at the time of its recognition. Overall, we consider the measurement inputs and assumptions used by management to be in line with our expectations and to lie also within a range that we consider reasonable. Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Companies Act, 1994 require the Management to ensure effective internal audit, internal control and risk management functions of the Company. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or taken together, they could reasonably be expected to influence the economic decisions of users taken because of these financial statements. As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with the mall relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on other Legal and Regulatory Requirements**

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 1987, we also report the following:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) in our opinion, proper books of accounts as required by law have been kept by the Company so far as it appeared from our examination of these books;
- c) the statements of financial position and statement of comprehensive income deal with by the report are in agreement with the books of accounts and returns; and
- d) the expenditure incurred was for the purposes of the Company's business.

**CHAPTER-XXVIII**

**PUBLIC ISSUE APPLICATION PROCEDURE**

## Application Process

### Step-1 (Applicant)

1. An applicant for public issue of securities shall submit application/buy instruction to the Stockbroker/Merchant Banker where the applicant maintains customer account, within the cut-off date (i.e. the subscription closing date), which shall be the **25<sup>th</sup> (twenty fifth) working day** from the date of publication of abridged version of prospectus.
2. The application/buy instruction may be submitted in prescribed paper or electronic form, which shall contain the Customer ID, Name, BO Account Number, Number of Securities applied for. Total Amount and Category of the Applicant. At the same time:
  - (a) Other than non-resident Bangladeshi (NRB) and Foreign applicants shall make the application money and service charge available in respective customer account maintained with the Stock broker/Merchant Banker. No margin facility, advance or deferred payment is permissible for this purpose. In case the application is made through a margin account, the application money shall be deposited separately and the Stock broker/ Merchant Banker shall keep the amount segregated from the margin account, which shall be refundable to the applicant, if become unsuccessful.
  - (b) Non-resident Bangladeshi (NRB) and Foreign applicants shall submit bank drafts (FDD), issued in favor of the Issuer for an amount equivalent to the application money, with their application to the concerned Stock broker/Merchant Banker. A Non-resident Bangladeshi (NRB) and Foreign applicant may also submit a single draft against 02 (two) applications made by him/her, i.e. one in his/her own name and the other jointly with another person. The draft (FDD) shall be issued by the Bank where the applicant maintains Foreign Currency account debiting the same account **and provide the customer with a certificate mentioning the FC account number which has been debited to issue the FDD. The applicant shall also submit the certificate with his/her application.** No banker shall issue more than two drafts from any Foreign Currency account for any public issue. At the same time, the applicant shall make the service charge available in respective customer account maintained with the Stock broker/Merchant Banker.
  - (c) **Eligible investors shall submit application through the electronic subscription system of the exchange(s) and deposit the full amount intended to subscribe by the method as determined by the exchange(s).**

### Step-2 (Intermediary)

3. The Stock broker/Merchant Banker shall maintain a separate bank account only for this purpose namely "Public Issue Application Account". The Stock broker/Merchant Banker shall:
  - a) post the amount separately in the customer account (other than NRB and Foreign applicants), and upon availability of fund, block the amount equivalent to the application money;
  - b) accumulate all the applications/buy instructions received up to the cut-off date, deposit the amount in the "Public Issue Application Account" maintained with its bank within the first banking hour of **next working day** of the cut-off date;
  - c) instruct the banker to block the account for an amount equivalent to the aggregate application money and to issue a certificate in this regard.
4. Banker of the Stock broker/Merchant Banker shall block the account as requested for, issue a certificate confirming the same and handover it to the respective Stock broker/Merchant Banker.

#### Your Requirement: 12

It is observed that the Company has made some re-arrangements/re-statements of its financial data. Mention the years in which such re-arrangements/re-statements were made, reasons with reference to IAS and impact on NAV and EPS:

#### Our Response:

There was no rearrangement/re-statement on the Financial data of eGeneration Limited. For the better presentation and understanding, there is an adjustment on the calculation of EPS & NOCFPS for the year ended 30<sup>th</sup> June 2018 in comparability with 30<sup>th</sup> June 2019. In 2018-2019 there is no weighted average number of Shares because of converting Share Money Deposit to the weighted average number of Shares. A comparable table below to show the relation of re-statement:

Particulates	As per the Audit Report 2018-2019 (Re-stated)		As per the Audit Report 2017-2018

## **Management Additional Disclosure regarding response to the Commission**

### **Requirements 01**

It is observed that the company was incorporated on November 22, 2003 and started its commercial operation on December 01, 2003. It is also observed that the paid-up capital of the company is TK. 60 crore among which TK. 50 crore was raised in the year of 2018. It is further observed that the company has the investment of Tk. 24,46,55,325/-, advance and prepayments of Tk. 6,79,86,245/- and cash & cash equivalent of Tk. 13,01,15,045/- as on June 30, 2019. In this connection you are requested to submit your justification of going into IPO for Tk. 15 crore and incorporate the same in the draft prospectus under management additional disclosure;

### **Our Response:**

The Company has invested its capital Tk. 60.00 crore partly in several investment projects and partly in fixed assets to expedite its ongoing businesses in IT Sector. The investments Tk. 244,655,325/- have needed to be made for than a year and revenues of the company have come after completing the investments. There are different IT projects investments like Learning & Earning Development Project, Block Chain Technology, Internet of Things, Smart Crowd Solutions, Data Center, Microsoft Solutions, Fertilizer Recommendation Systems, etc. where the management of the Company concentrated its investments to boost up its revenue in future. Here, the Company has made consolidated invested for Tk. 244,655,325/- over the years. Out of the total advance, deposit and prepayments of Tk. 67,986,245/- & Tk 30,274,110/- were made to Microsoft Limited as Security Deposits for different supplies, Tk 23,704,357 deposited as bid money for different government projects during the tender submission, Tk 10,170,137 was kept for security against Long term Loan to IPDC Finance Limited and the rest of Tk. 3,837,641 was made for different business operations. Out of the Cash and Cash Equivalent of Tk. 130,115,045, Tk. 88,394,877/- was a receivable collection from Sonali Bank Ltd and Border Guard Bangladesh(BGB) at the cutoff date and Tk. 41,522,695 as balances is a regular basis that was a part of working capital against payment to suppliers, salaries and wages, utility expenses etc. The rest amount Tk. 197,473 was a Petty Cash balance. Therefore, the amount has no relation with the Initial Public Offering of eGeneration Limited. The banking finance is very difficult in the IT Sector business since the financial institutions are demanding a huge amount of immovable properties as collateral against their loan in addition to the investment projects, which may not be possible to arrange by such type of IT Services Company. Therefore, the IT Sector Company may compulsorily need to procure funds from the capital market if such companies are expecting to expand their businesses in the future.

### **Requirements 02**

It is observed that the company has 385 items of equipment's/software among which 175 equipment/software has already expired their economic life before zero to ten years. As such, how the company will run its business into foreseeable future with this backdated equipment's and how the company will generate forecasted revenue and you are requested to incorporate the same in the draft prospectus under management additional disclosure;

### **Our response:**

Being an IT-based company, eGeneration Limited is regularly updating its equipment's/software to compete with the business in the near future. This is an estimated economic life of the equipment's/software which may not be exhausted after its economic life upon completing the depreciation since the management upgrading those regularly. In addition to the above, the Company is regularly developing new software to generate its future income. Therefore, it will not be a problem for the Company to generate forecasted revenue using the current equipment's/ software.

### **Requirements 03**

It is observed that drafts prospectus of eGeneration Limited is signed by Company Secretary (CS), Chief Financial Officer (CFO) and Managing Director (MD) of the Company but the name of CS, CFO and MD are not mentioned;

### **Our response:**

We are extremely sorry for the inadvertent mistake. We are submitting herewith an updated Draft Prospectus in **Annexure-A** mentioning the name of Company Secretary (CS), Chief Financial Officer (CFO) and Managing Director (MD) of the Company as per your requirement.

#### **Requirements 04**

Revised physical verification report by Issue Manager mentioning, in addition, whether documents of all tangible and intangible assets as described in the asset schedule were verified physically or not and whether they are in good condition or not, is to be submitted and to be incorporated in the draft prospectus.

#### **Our Responses**

We have attached herewith the revised Physical Verification Report provided by the Issue Manager in **Annexure-B** and have incorporated the same in the draft Prospectus as per your requirement.

#### **Requirements 05**

It is observed that earning per share (EPS), return on assets (ROA) and return on equity (ROE) of the company are gradually decreasing year to year. Mention the reasons behind this and the company's plan to pay dividend to the prospective investors and incorporate the same in the draft prospectus under management additional disclosure;

#### **Our Explanations:**

The Earnings per Share (EPS), Return on Assets (ROA) and Return on Equity (ROE) of the company are gradually decreasing year to year because of the following reasons:

The Earnings per Share (EPS) is decreasing day by day for the previous year due to the increase of the Paid-up Capital as well as the addition of Share Money Deposit on the respective years although the profitability of the company was increased to 273% percent in 2019 compared to 2015. The paid-up capital of the Company was Tk. 4,200,000 in 2015 whereas the paid-up capital of the Company was Tk. 600,000,000 in 2019. The Net Profit for the year ended 30 June 2019 was Tk. 109,042,194 and Tk. 39,930,005 year ended 30 June 2015 as a result of increasing the Net ProfitTk. 69,112,189 (which is 173% higher than 2015 net profit) from the year ended 30 June 2015. On the other hand, Return on Assets (ROA) decreased compared to previous years of the company because of the higher investment in subsequent years compared to 2015. Although the average total assets of the company were increased to 615% percent in 2019 compared to 2015. The average assets of the Company were Tk. 205,693,893/- in 2015 whereas the average assets of the Company were stood to Tk. 1,232,382,646 in 2019 (the percentage of increase of the average assets was 515% in 2019). All of the assets, which were increased during the years, were not directly related to the increase of revenue like furniture & fixture, interior development, vehicle, power equipment, server, etc. Some of the assets may need further development for generating revenue like Capital Work in Progress and Project Investment. Therefore, any increase of assets may increase the revenue accordingly. The Net Profit for the year ended 30 June 2019 was Tk. 109,042,194 and Tk. 39,930,005 year ended 30 June 2015 as a result of increasing the Net ProfitTk. 69,112,189 (which is 173% higher than 2015 net profit) from the year ended 30 June 2015. And accordingly, the higher the assets may contribute to higher profit but may not at the same rate of assets increase. Besides, Return on Equity (ROE) decreased compared to previous years of the company because of the higher investment in subsequent years up to 2019 compared to 2015. Although the Shareholders' Equity of the company was increased to 726% percent in 2019 compared to 2015 the profitability of the Company was not increased at that level. The shareholders' equity of the Company was Tk. 170,066,792/- in 2015 whereas the Shareholders' Equity of the Company were stood to Tk. 1,233,534,845 in 2019 (the percentage of increase of the Shareholders' Equity was 626% in 2019). The equity was utilized in Company assets. All of the assets, which were increased during the years, were not directly related to the increase of revenue like furniture & fixture, interior development, vehicle, power equipment, server, etc. Some of the assets may need further development for generating revenue like Capital Work in Progress and Project Investment. Therefore, any increase of equity may not increase the revenue accordingly. The Net Profit for the year ended 30 June 2019 was Tk. 109,042,194 and Tk. 39,930,005 year ended 30 June 2015 as a result of increasing the Net ProfitTk. 69,112,189 (which is 173% higher than 2015 net profit) from the year ended 30 June 2015. And accordingly, the higher the equity investment may contribute to higher profitability but may not at the same rate of equity investment.

**Financial Statements for the year ended 30<sup>th</sup> June 2020 as per Public Issue Rules 2015:**

**Independent Auditor's Report  
To the Shareholders of eGeneration Limited**

**Report on the Audit of the Financial Statements****Opinion**

We have audited the Financial Statements of **eGeneration Limited** (the "Company"), which comprise the Financial Position as at 30<sup>th</sup> June, 2020, and Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information. In our opinion, the accompanying Financial Statements give true and fair view, in all material respects, of the Financial Position of the Company as at 30<sup>th</sup> June, 2020, and of its Financial Performance and its Cash Flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs)

**Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk
<b>Revenue Recognition</b>	
Revenue recognition was determined to be a key audit matter and a significant risk of material misstatement because of the risk related to the timing and accuracy of the recognized amounts of revenue. The total revenue generated for the year ended was of amount Tk. 396,321,127.	Our audit procedures comprised the testing of internal controls in connection with the revenue recognition including the application controls in the most important IT applications impacting the financial reporting. We performed analytical procedures that focused on analyzing the development of turnover. In addition, we performed audit procedures such as compared revenue transactions near year-end to the supporting

Risk	Our response to the risk
<p>Recognition of the revenue is complex due to several types of customer contracts utilised, including sale of software and service sales.</p> <p>We focused on this area as recognition of revenue involves significant judgment and estimates made by Management including, whether contracts contain multiple performance obligations which should be accounted for separately and the most appropriate method for recognition of revenue for identified performance obligations. This comprises allocation of consideration to the individual performance obligations of multi-element contracts as noted above, assessing whether performance obligations under supply-and-installation contracts are satisfied at a point in time or over time.</p> <p>Further, it comprises the point in time when transfer of control has occurred regarding sale of software and assessing the degree of completion of project and service contracts, which are accounted for over time.</p>	<p>documentation, analyzed general ledger journal entries in order to identify abnormal entries as well as compared trade receivables to the payments received.</p> <p>We tested the relevant internal controls used to ensure the completeness, accuracy and timing of revenue recognised, including controls over the degree of completion of developing the software and service contracts at year-end.</p> <p>We read a sample of both project and service contracts to assess whether the method for recognition of revenue was relevant and consistent with IFRS 15, and had been applied consistently. We focused on contract classification, allocation of income and cost to the individual performance obligations and timing of transfer of control. Where a contract contained multiple elements, we considered Management's judgments as to whether they comprised performance obligations that should be accounted for separately, and, in such cases, challenged the judgements made in the allocation of the consideration to each performance obligation</p> <p>We evaluated and challenged the significant judgements and estimates made by Management in applying the company's accounting policy to a sample of specific contracts and separable performance obligations of contracts, and we obtained evidence to support them, including details of contractual agreements, delivery records, receipts and project plans.</p> <p>For the contracts selected, we inspected original signed contracts and reconciled the revenue recognised to the underlying accounting records. We obtained a sample of Management's calculations of the degree of completion of service contracts at year-end. We matched a sample of source data used in Management's calculation to supporting evidence, and evaluated the judgments applied.</p>

<b>Valuation of Property, Plant and Equipment</b>	
<p>The carrying value of the PPE amounted to Tk. 277,595,710 as at 30 June, 2020. The valuation of PPE was identified as a key audit matter due to the significance of this balance to the financial statements.</p> <p>Expenditures are capitalized if they create new or enhance the existing assets, and expensed if they relate to repair or maintenance of the assets. Classification of the expenditures involves judgment as there are assets that are specialized in nature and assessing the physical existence</p>	<p>Our audit included the following procedures:</p> <p>We assessed whether the accounting policies in relation to the capitalisation of expenditures are in compliance with IFRS and found them to be consistent.</p> <p>The physical existence of the assets was verified as there were specialized for the sector.</p> <p>We obtained a listing of capital expenditures incurred during the year and, on a sample basis, checked whether the items were procured based on</p>

See note no. 4.00 to the financial statements	
<b>Evaluation of Intangible assets</b>	
<p>The intangible assets reported in the financial statements of amount Tk. 314,876,884 was identified as a key audit matter due to the significance of this balance to the financial statements along with its nature.</p> <p>The intangible assets include the purchased software license, implementation, and integration and system development costs related to the software.</p> <p>Periodic impairment testing of these intangibles requires determination of recoverable amounts and value in use. Both these values involve significant management's estimate and judgments that can give rise to material misstatements or management bias.</p>	<p>We assessed the processes and controls put in place by the company over the review of intangible assets and its impairment analysis.</p> <p>We obtained an understanding, evaluated the design and tested the operating effectiveness of the key controls over the recognition of intangible assets, impairment testing, including controls over market data inputs into valuation models, model governance and valuation adjustments.</p> <p>We evaluated the appropriateness of future cash flows that is to be generated from the use of the intangible assets.</p> <p>Overall, we consider the measurement inputs and assumptions used by management to be in line with our expectations and to lie also within a range that we consider reasonable.</p> <p>Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.</p>
See note no.5.00 to the financial statements	
<b>Valuation of investment</b>	
<p>The investment made was of Tk. 253,185,325 as at 30 June, 2020 on development of several upcoming technologies.</p> <p>Future economic benefits are to come to the company in future. To determine the benefits that are to flow to the company from these investments require significant management's estimate and judgments that can give rise to material misstatements.</p> <p>The valuation of the investment portfolio involves judgement and continues to be an area of inherent risk. The risk is not uniform for all investment types</p>	<p>We assessed the processes and controls put in place by the company over the investment made and whether economic benefits is to flow to the company.</p> <p>We obtained an understanding, evaluated the design and tested the operating effectiveness of the key controls over the recognition of these investments.</p> <p>We evaluated the appropriateness of future cash flows that is to be generated from the investment made.</p>

and is greatest for this type of industry, where the investments are hard to value because uncertainties are involved in relation to the future economic benefits to be received.	Overall, we consider the measurement inputs and assumptions used by management to be in line with our expectations and to lie also within a range that we consider reasonable.  Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.
See note no. 6.00 to the financial statements	
<b>Valuation of Work-In-Progress</b>	
The work-in-progress as at 30 June, 2020 was of Tk. 340,500,157 that is considered to be significant to the financial statements due to its nature. Our audit procedures were designed to focus on the development stages of the software that involves significant judgment and estimates made by Management including, whether contracts contain multiple performance obligations and these are transferred to assets based on the those obligations and contracts. It comprises the point in time when transfer of control due to its usable condition has occurred regarding the software and assessing the degree of completion of project and service contracts, which are accounted for over time.	We tested the design and operating effectiveness of the company's controls over the recognition of the work in progress to relevant category of assets that are critical to financial reporting.  We assessed the processes and controls put in place by the company over the work in progress to be transferred as assets and whether economic benefits is to flow to the company at the time of its recognition.  Overall, we consider the measurement inputs and assumptions used by management to be in line with our expectations and to lie also within a range that we consider reasonable. Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Companies Act, 1994 require the Management to ensure effective internal audit, internal control and risk management functions of the Company. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on other Legal and Regulatory Requirements**

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 1987, we also report the following:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) in our opinion, proper books of accounts as required by law have been kept by the Company so far as it appeared from our examination of these books;
- c) the statements of financial position and statement of comprehensive income dealt with by the report are in agreement with the books of accounts and returns; and
- d) the expenditure incurred was for the purposes of the Company's business.
